

PROGRAM STUDI

INTERNATIONAL BACHELOR PROGRAM CHEMICAL ENGINEERING

Accreditation **UNGGUL**

**TWO COUNTRIES.
TWO DEGREES.
ONE FUTURE.**

since 2019

**DUA GELAR
S.T. + B.Sc.**

Studi
Duration

4

TAHUN

144

SKS

**Campus
Location**

Kampus Kalijudan
Surabaya

WHY CHOOSE US?

- Hands-on learning to design, test, and solve real-world engineering challenges
- Problem-based learning to strengthen critical thinking and analytical skills
- Strong global research & industry partnerships
- Access to student exchange, research internships, and international collaborations
- Global learning experience that prepares you for wider career opportunities

WHAT YOU'LL LEARN

In the Chemical Engineering International Bachelor Program, the world is your campus! You can spend 1–2 semesters studying, researching, or interning at top-tier institutions worldwide, or even score two diplomas through our 2+2 Joint Degree program with elite partner universities. From immersive study trips and international volunteering to summer camps and cultural exchanges, this program is your passport to a massive global network and an unforgettable career.

Networking & Partnership

FUTURE CAREERS

Production Engineer

Process Engineer

Product Development

Consultant

Research and Development

Technopreneur

Global Researcher
