WHAT YOU'LL LEARN

Mahasiswa Program Studi Informatika mempelajari logika pemrograman, kecerdasan buatan, dan rekayasa perangkat lunak, dengan fokus pada data science dan machine learning, pengembangan web dan mobile, UI/UX, serta cyber security untuk menyiapkan lulusan yang siap bersaing di industri digital.

Partnership

SOPHISTEC GLOBAL
Empowering Business Success

FUTURE CAREER

- Full Stack & Distributed Systems Engineer
- AI Solutions Architect / AI Researcher
- DevOps & Infrastructure Engineer
- Cloud Architect
- Cybersecurity Analyst

WHY CHOOSE US

Lulus 3,5–4 Tahun

Masa studi fleksibel & terarah

Skill Masa Depan

Data Science • ML • Cyber Security • Software Dev

Dosen Bersertifikasi Internasional

Belajar dari praktisi industri

Sertifikasi Nasional & Internasional

Tingkatkan daya saingmu

Kurikulum Selaras Industri

Siap kerja sejak lulus

Talenta Digital Masa Depan

Adaptif, inovatif, siap bersaing

BUSINESS OPPORTUNITIES

Custom B2B Software Solutions

AI Consulting & Edge Deployment

Technical Training Workshops

Micro-SaaS (Software as a Service)
